

(xi) said still picture cell general information comprises an end still picture video object entry number referring to a specified number of still picture video objects included in a still picture video object group,

(xii) said still picture video object group information comprises a still picture video object group general information, and

(xiii) said still picture video object group general information comprises a start address of a corresponding still picture video object group in the still picture audio/video file, the information reproducing apparatus comprising:

means for reproducing one of the still picture video objects based on the real time recording video manager, wherein the one of the still picture video objects is accessed according to the start address of a corresponding still picture video object group.

REMARKS

Favorable consideration of this application as presently amended is respectfully requested.

After entry of the foregoing Amendment, Claims 16-19 remain pending in the present Application; Claim 1 has been canceled, and Claims 16-19 have been added by the present amendment. Applicants note that the Preliminary Amendment filed on February 19, 2002, cancels Claim 2-27; however, the original application included only Claims 1-15. Therefore, new Claims 16-19 have been numbered in accordance with the claims of the original application.

Support for new claims 16-19 may be found, for example, in Figure 12 and the Specification at page 43, line 18 to page 45, line 8. Applicants therefore respectfully submit that no new matter has been added by the present Amendment.

In view of the present amendment, the present application is believed to be in condition for allowance and an early and favorable action to that effect is respectfully requested.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,
MAIER & NEUSTADT, P.C.
